

SPECIFICATION OF JENIX DS-B03

ITEMS		DS-B03 (Baby's height and weight scale)
Height measuring range		42 ~ 92 cm (measuring unit: 0.1cm)
Height measuring method		Magnetic linear encoder
Weight measuring range		0~30kg
Weight measuring method		Load cell
Tolerance		Height: ± 1 mm, Weight: ± 100 g
Adaptor	Input	AC 220V, 50-60Hz, 1A
	Output	DC 9V, 1A (Consumption power: 8 ~ 10W)
Display		Digital value on LED (7 segments).
Material		Aluminum & Wood
Dimensions		1070(W) \times 520(L) \times 90(H) (unit: mm)
Weight		12.5kg
Temperature range		10°C ~ 40°C
Measuring order		Weight automatically & Height manually
Measuring time		Weight : within 5 seconds, Height: by manual
Fatness Formula		KAUP Index (BMI for Babies)
Features		Easy to use, Excellent stability and design
Product Composition		DS-B03, Adaptor(DC9V,1A), a Desk
